

5 years and Under Child's Voice Application

WE NEED TO HEAR WHAT IS IMPORTANT TO YOU!

A lot of us grown-ups are very concerned for children of this modern world, especially your time and space to play.

We are worried that us grown-ups might be changing all the best parts of being a child, like - Being able to connect with friends in real life, being able to play without adults, explore your neighbourhoods, be free, be adventurous, challenge yourselves, have fun, be independent, be confident, feel safe in your community and have great connection to the natural world.

We would like to hear directly from the children of Logan about this.

You can send a video, drawing or a group piece and these will be used to deliver a message to grown-ups and promote what you want to say at the Childhood Summit in October Oct 28, 29 or 30 2021.

This is your chance to support the children in your centre to have a say about what is important to them.

Some questions to get your ideas going:

What do you love about where you live?

If you could play something really special what would it be?

What are the things you see that you don't like? What could we all do to help?

Children and Play: Tell us how you love to play?
